

British Queen Pledges Free Cooperation

By WARREN ROGERS JR.
WASHINGTON (AP) — Queen Elizabeth II turned today from affairs of state, like British-American unity, to watch her first American football game.

Last night, she dined and exchanged with Secretary of State Dulles a pledge of "free and friendly cooperation," as she put it in a formal toast to President Eisenhower.

Today, she was a guest for the University of Maryland-North Carolina University football game. Her seat was in a carefully engineered box at the 50-yard line.

But before the game in nearby College Park, Md., she and her tall blond husband, Prince Philip, faced a round of the sort of thing they usually do at home.

First up was a British Embassy reception for the diplomatic staffs here of the commonwealth nations. Following that, the Queen arranged to confer honors on American and commonwealth citizens.

Then came the laying of a foundation stone for a new office building at the British Embassy. Philip had a date to visit the Marine barracks for a troop review.

The climax of today's program was a state dinner today at the embassy honoring President and Mrs. Eisenhower.

Elizabeth was reported, meanwhile, to have informally sounded out Eisenhower on the possibility of his visiting London next year.

The British Information Services in Washington denied any invitation had been extended. But in London officials close to Buckingham Palace and the cabinet said they understood the Queen had personally and informally let Eisenhower know a visit would be welcome when he finds time. They did not say what response she got.

For the foundation stone ceremonies, Elizabeth selected a gavel used by one of her kinsmen, George Washington, to start building the U. S. Capitol in 1793. Last Wednesday the British Foreign Office confirmed what had been asserted for at least two years: That she and Washington, as well as Robert E. Lee, were distant relatives.

It was clear to all observing the petite Queen that she has found a new role for herself here. Perhaps because of criticism at home, from people like Lord Altrincham and writer Malcolm Muggeridge, Elizabeth has changed her style.

She complained, to the consternation of the royal household, that her public behavior lacked enough of the human touch.

Automatic Stay of Execution

LITTLE ROCK (AP) — The electrocution of James M. Moore, set for today, has been automatically stayed by an appeal to the Arkansas Supreme Court.

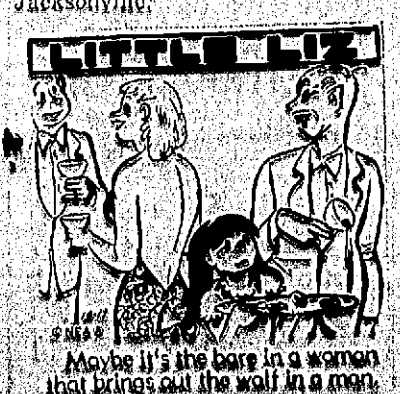

The 19-year-old Texarkana Negro was convicted in Miller Circuit Court for the robbery-murder of M. R. Hamm, a 76-year-old white man in May, 1936.

Moore and three other Negro youths were sentenced to death last year for the murder, but the state Supreme Court reversed the convictions and ordered separate trials. Moore's second conviction is the only one to reach the Supreme Court so far.

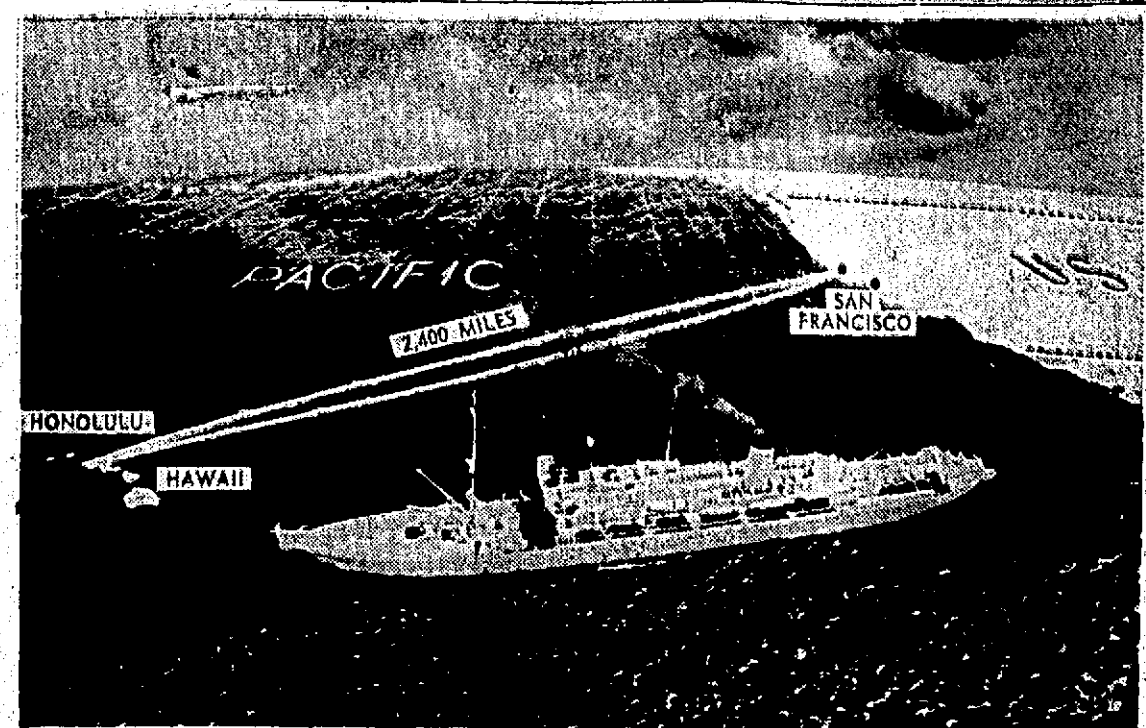

If the high court upholds the death sentence Gov. Orval Faubus will have to set an execution date. Faubus is already faced with setting a date for the electrocution of Luther Bailey, 46, a Negro convicted of criminally assaulting a Little Rock white woman in June 1938.

Bailey was scheduled to die in August but an appeal was taken to the U. S. Supreme Court which Monday declined to review the case.

Faubus is expected to take action this week in the case of a third occupant of a death cell at Tucker State Penitentiary. The governor has twice stated the execution of Emmett Earl Lasseg permit further mental examination but no psychiatric tests have been ordered yet for the 24-year-old killer of Joe King, 16, near Jacksonville.

Maybe it's the bare in a woman that brings out the wolf in a man.

HONOLULU CALLING—The world's largest and deepest underwater telephone cable system, stretching 2,400 miles (2,100 nautical miles) between the mainland of the United States and Hawaii is now in operation. The system, completed at an overall cost of 37 million dollars, consists of two submarine cables lying about 25 miles apart on the ocean floor at depths up to 3½ miles. One cable carries voices eastward, the other westward. Operators in hundreds of U. S. and Canadian cities can now dial Hawaii direct. HMTS Monarch (inset), the world's largest cable-laying vessel, teamed with another ship to lay the cables during July, August and September. The new system is jointly owned by American Telephone and Telegraph and the Hawaiian Telephone Company.

At Least 50 Persons Die From Flu

By The Associated Press

There have been at least 50 deaths from Asian flu and possibly many more since the respiratory disease started sweeping across the nation several months ago.

Many of these deaths, however, were complicated by other factors such as pneumonia or chronic illness. And many of the cases were not confirmed by laboratory tests to the Asian flu.

The flu seems to deal harshly with retarded children, who often have weak resistance to such diseases. There have been several serious outbreaks in institutions for such children in widely scattered places.

When it is considered that there have been possibly several hundred thousand cases throughout the nation, the mortality rate is very low. New York City alone has had 65,000 cases, of suspected Asian flu since Sept. 27.

Figures are hard to come by, however. Reporting techniques differ with different state health departments. Because the number of cases is so large, it is impossible to confirm by means of a lengthy laboratory test whether each one actually is Asian flu.

In many areas schools and colleges have been closed as the flu cases mount. A number of football games have been called off.

A nationwide survey yesterday showed this breakdown on flu deaths:

California—14 deaths since mid-June "associated with influenza" and some still under investigation.

Wisconsin—5 deaths.

Illinois—5 deaths at the Dixon State School for Mentally Retarded Children and Adults since the disease struck two weeks ago. Precise type of flu not pinned down, however.

Pennsylvania—6 deaths, all in Pennsylvania State Training School for Mentally Retarded Children. Tests being made to determine if Asian type flu.

District of Columbia—Again the retarded child connection — one death reported at a district institution from complications following flu.

Ohio—No deaths confirmed by state health authorities, but two reported in Cleveland and one in Dayton by local doctors.

Colorado—Several suspected Asian flu deaths, but none confirmed. Denver officials report 10 in the city from tracheal bronchitis, with Asian flu suspected in several.

Michigan—14 more deaths in Detroit Tuesday from flu and complications, making a total of 10 since outbreak started.

Utah—5 deaths from confirmed flu or complications.

Missouri—2 Asian flu deaths, both in cases of chronic illness.

Oregon—One Portland death from flu, better no test for type of flu.

New York—One Colgate University student death possibly due to flu.

Oklahoma—38 influenza deaths from Jan. 1 through June, but this includes all kinds of flu and not classified as to type.

Coldest Weather at Fayetteville

By The Associated Press

A minimum temperature of 34 degrees—lowest in the state since last spring—was reported early today at Fayetteville, the U. S. Weather Bureau at Little Rock said.

Other minimum readings included 35 at Mountain Home, Gilbert and Batesville.

The Weather Bureau said frost could be expected tonight in exposed places of north Arkansas. It forecast temperatures in the low 30s for northwest Arkansas to night. Minimum readings elsewhere are expected to be in the high 30s or low 40s.

Highs this afternoon in the 60s and 70s under fair skies were predicted. The Weather Bureau said skies will be partly cloudy and temperatures mild tomorrow.

Maximum temperatures yesterday also ranged in the 60s and 70s.

Marie Wilson to Give Up Adopted Child

LOS ANGELES (AP) — Actress Marie Wilson, her cheeks wet with tears, reluctantly gave up her baby to the child's natural mother.

The unwed mother, pretty Linda Leabow, a 21-year-old UCLA coed, took a long look at her daughter yesterday and said softly: "Ah, baby—I love you."

Miss Wilson and her husband, television producer Bob Fallon, turned over 3½ month-old Christine at a doctor's office shortly after they decided not to fight to retain custody of the child.

The Fallons and Miss Leabow did not meet. The physician, Dr. Gilbert Jorgensen, took the baby from Miss Wilson's arms in one room then placed her in the arms of Miss Leabow, waiting in an adjoining room.

Earlier, the Fallons issued a statement saying that they believed "further airing of this incident to court would only make a legal football out of an innocent baby and cause further grief of everyone concerned."

They had been caring for the little girl, planning to adopt her—since shortly after her birth.

The mother had agreed before the child was born to give the Fallons custody, but she later changed her mind and said she would fight any adoption attempt.

After Christine had been turned over to her mother, Miss Wilson and Fallon returned to their Hollywood Hills home and to their previously adopted son, Gregson, 2.

"We still want more children," Fallon said.

Body of Farmer Found in River

BENTON (AP) — The body of a 67-year-old retired Salina County farmer who disappeared Oct. 5, was found by a rural mail carrier in North Fork River six miles west of here yesterday.

He was Leon E. Nash, who was last seen alive shortly before noon Oct. 5.

Search parties, which at one time included 250 persons including 60 National Guardsmen, spent eight days looking for the man in wooded areas of the county.

Today Stuart Pike, a rural letter carrier, spotted the body partially submerged in the creek as he crossed a bridge.

Cowen George McDonald said the body was sent to the University of Arkansas Medical Center at Little Rock for autopsy.

Stock Market Decline Is Resumed

NEW YORK (UP) — The Stock market resumed its decline at a reduced pace today after a small rally at the opening.

That opening rise reflected bargain hunting after the market had met support where it did a week ago. When the initial trades were out of the way the market moved up slightly.

Then the market settled down to routine weekend trading, involving evening up operations.

There was no particular pressure exerted in any section but the copper, which still are under the influence of high stocks and low prices. New lows were set by Inspiration, Copper, Kennecott, Magna and Reynolds Metals.

Losses in the group ranged to more than a point.

Leading steels sagged but Youngstown Sheet Tube rose more than a point and Colorado Fuel Iron a point.

Autos were mixed with Chrysler up a point and fractional losses sending Ford and General Motors to new lows. Among wider changes in the specialties, Zenith rose ½ and American Shipbuilding lost.

Oil shares eased small amounts. Du Pont touched a new low on the chemicals.

The Dow Jones averages at noon: D. J. 36 Industrials 436.72, a 0.15; 20 rails 114.04, off 0.29; 16 utilities 64.81, off 0.15; and 65 stocks 140.17 off 0.17.

Former Hope Pastor Is Rotary Speaker

Dr. Thomas Brewster, Minister of the First Presbyterian Church, Port Stockton, Texas, was guest speaker at the luncheon meeting of Hope Rotary Club Friday at Hotel Barlow.

He was introduced by Robert Wilson, program chairman, and delivered a very fine talk to the Club which was composed of many former friends and acquaintances.

Dr. Brewster was pastor of the Presbyterian Church of Hope for a number of years and club members were highly pleased to have the opportunity of having him as a guest speaker.

Other visitors included Garland Medders, Hope Dr. Monroe, J. Goode and Garland Reading both of Fayetteville. Thirty-three members were in attendance with president Lloyd Guerin presiding.

Search for Missing Woman Called Off

MALVERN (UP) — A day-long search for a 50-year-old Hope Springs County woman ended yesterday when her brother-in-law brought her home.

A search party headed by Sheriff Marion G. Bankson and supplemented by National Guardsmen of the 21st Signal Battalion here spent the day searching for Mrs. Curtis Williams, of the Big Creek community.

She disappeared about 5:30 p. m. Wednesday.

The National Guard was called after searchers failed to find Mrs. Williams' body when they drained a pond near Poyen on the theory she might have drowned.

Later yesterday, Carmie Williams, Mrs. Williams' brother-in-law, returned to his home at Clear Creek, which adjoins Big Creek, and found his missing woman in the house.

He told her she had been brought home after a domestic quarrel with her husband.

Secretary of Defense Says 'Get With It'

WASHINGTON (AP) — Secretary of Defense Neil McElroy has served notice he will stand for no delays in planned development of long range ballistic missiles.

He also indicated yesterday he will accept to excuses that bottlenecks or lack of help are impeding progress in this vital defense field.

The new Pentagon boss, who has been on the job less than two weeks, made known his position in a memorandum to the secretaries of the Army, Navy and Air Force.

A number of Congress members of both parties have voiced concern over the recent launching of a Russian earth satellite before the United States could get one aloft. Some of them have said this, coupled with Russia's claimed success in testing an intercontinental missile, indicates the United States has fallen dangerously behind the Soviets.

Sen. Russell (D-Ga.), chairman of the Senate Armed Services Committee, said in Blackhear, Ga., he planned to fly here today to direct a committee investigation of the nation's missile and satellite programs.

In his memo, McElroy said he was "greatly encouraged by the progress" he said is being made at missile centers he visited. He said that, during these visits, he had watched firings of both operational and test weapons "which in general met or exceeded their design specifications."

He said it appeared the missile program represents "the best balance of technical knowledge, trained manpower and test installations that we can make it this time."

But McElroy stressed the "great importance to our national security of maintaining these programs on schedule."

The individual service heads were ordered to send weekly progress reports to William Boland, McElroy's assistant in charge of missile matters, and to mark copies of such reports "for my personal attention."

The defense chief said a preliminary service secretaries to inform him directly if they need any help on scientific problems that might be hindering progress in ballistic missiles development.

At one point in his memo McElroy seemed to be taking note of charges by some members of Congress and others that development of American intercontinental missiles has been slowed by inter-service rivalries.

He told the service heads to inform his guided missiles aides immediately of any assistance which any other service, the Defense Department or any government agency can provide "which will insure the maintenance of our schedules."

McElroy said that as far as he knows, all requests for permission to pay overtime in the missile program had been approved.

The defense chief said no preliminary study turned up no regulations to hamper progress in ballistic weapons development.

Meanwhile, Vice Adm. John H. Sides, director of the Defense Department's weapons evaluation group, said last night that he is confident "that we shall win" the race for development of effective intercontinental missiles.

Speaking in New York, the admiral disputed the Russian claim to have achieved such a missile. He said the Russian claim probably was based on an "errant Sputnik" that failed to reach its orbit when launched late in August.

Slight Drop in Dept. Store Sales

ST. LOUIS (AP) — The Federal Reserve Bank of St. Louis reported today a department store sales in the Eighth Federal Reserve District last week were 1 per cent lower than sales the same week of 1936.

The Memphis area and seven smaller district cities showed decline of 5 per cent, the bank reported.

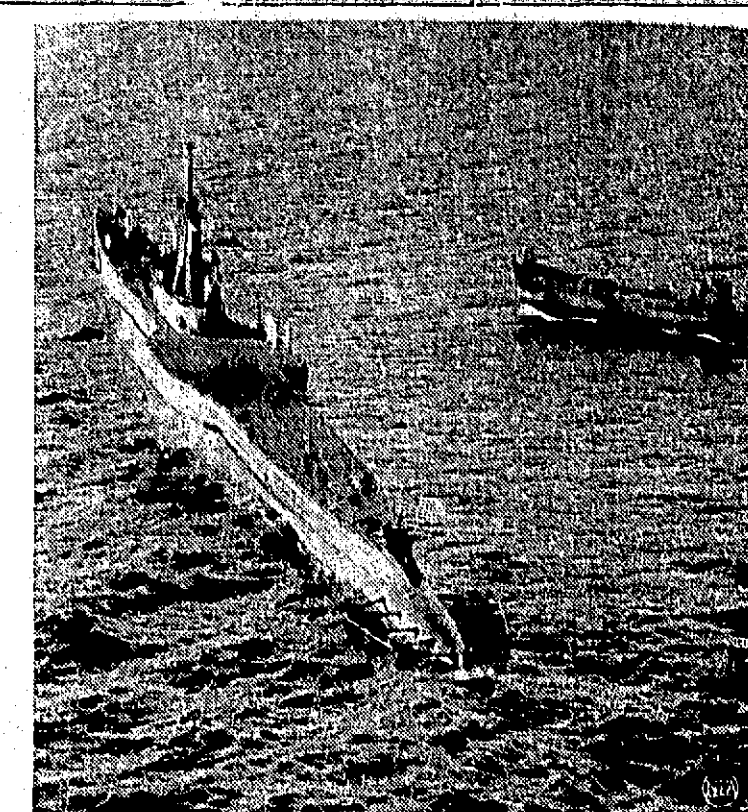

The St. Louis and Louisville areas registered 1 per cent gains in dollar volume while the Little Rock area has a 5 per cent gain.

For the four weeks ended Saturday, district sales averaged 1 per cent less than in the same period in 1936.

CAP Searching for Missing Flyer

WEST PLAINS, Mo. (AP) — The Civil Air Patrol had between 30 and 40 planes lined up today for another attempt to find George Burkhardt, missing since Monday on a flight from his home at Morris, Ill., to Russellville, Ark.

The search was concentrated along the Missouri-Arkansas border near West Plains after a score of residents reported they heard a low flying plane Monday.

SOME SUB—With the Stars and Stripes flying from its stern, this somewhat odd-looking submarine taking part in operation "Deep Sea" surfaces in the Dardanelles. Crewmen topside on the sub watch a landing craft returning from the coast of Canakkale, opposite the Gallipoli peninsula in Turkey. The landing craft, as well as helicopters, which presumably landed on what appears to be the sub's flight deck, carried U.S. Marines ashore to aid Greek and Turkish troops already "engaged" in simulated combat. NATO forces are engaged in mock nuclear warfare.

Pinay Appeals for Support in France

PARIS (UP) — Leather Merchant Antoine Pinay asked the National Assembly today to end the 19-day old government crisis by making him France's 24th postwar premier. His chances of success were slim.

Pinay had advance pledges of support from only 22 per cent — 133 deputies — of the 596 — member assembly. He needed a majority of those voting to win.

The French Communist deputies snarling from the humiliating flop of their nationwide demonstration against the Algerian war Thursday, went all out to oppose him.

The French Communist party newspaper "L'Humanite" insisted the demonstration was a smashing success. But French officials said there were few strikes or demonstrations and they had little effect.

Pinay, 66, credited with stabilizing the French ranch when he was premier in 1952, explained his program and presented his cabinet to the National Assembly this morning.

He asked for unprecedented emergency powers or one year to handle France's constitutional, financial and Algerian problems.

He said the current government crisis, precipitated by a no-confidence vote on Algeria that felled the government of Radical Maurice Bourges, Maunoury Sept. 30, is "one of the most serious we have ever known."

Pinay said France had made a remarkable recovery from two world wars and soon will have the youngest population in Europe.

"But one truth forces itself upon us: the contradiction between the immense possibilities of our country and the political crises that paralyze it. We must bring remedies that will get to the bottom of things."

The assembly adjourned until this afternoon to permit deputies to deliberate on how they would vote.

Pinay's proposed cabinet had many new faces because it was made up of small splinter groups. The Socialists and popular Republicans refused to join it.

He designated himself or prime minister, minister of foreign affairs and finance minister.

Fr. Chaffee Force to Be Reduced

WASHINGTON (AP) — Secretary of the Army Wilbur Brucker said today the armed strength at 14 military posts will be reduced by 50,000 by mid-1953 in order to cut back to a personnel ceiling fixed for that date.

He said no major post would be inactivated during fiscal year 1953, ending next June 30. He said the reductions will be accomplished largely by cutting down on the number of trainees, transfers and inactivation of some units.

Brucker outlined to members of Congress in letters these specific manpower reductions to be accomplished by June 30, 1953:

Fort Benning, Ga., 9,500; Ft. Bragg, N. C., 4,500; Ft. Carson, Colo., 4,000; Ft. Hood, Tex., 2,000; Ft. Lewis, Wash., 4,500; Ft. Riley, Kan., 1,000; Ft. Sill, Okla., 1,500; Ft. Gordon, Ga., 3,000; Ft. Chaffee, Ark., 5,000; Ft. Doyen, Mass., 5,000; Ft. Jackson, S. C., 6,000; Ft. Leonard Wood, Mo., 2,500; Ft. Ord, Calif., 1,500; and Ft. Rusk, La., 2,500.

Presbyterians to Hear Dr. Brewster

Dr. Thomas Brewster of Port Stockton, Texas, former pastor of the Hope Presbyterian Church, has accepted an invitation to fill the pulpit of the Presbyterian Church Sunday morning, Dr. and Mrs. Brewster have been visiting their many friends in Hope during the past few days.

An invitation is extended by the church to all.

Shocked by Complacent U. S. Attitude

By DON GUY

Cambridge, Mass. — Dr. J. Allen Hynek, associate director of the Smithsonian Astrophysical Observatory, said today he was shocked at the complacent attitude he encountered in the Midwest yesterday toward the Russian fleet of launching a satellite.

Dr. Hynek spoke yesterday at the annual meeting of the Optical Society of America at Columbus, Ohio. He spoke on the satellite optical tracking program of which he is head.

The complacency, he said, was among laymen and not the scientists he met in the Midwest.

"Their attitude seemed to be that we had lost the ball on the 40-yard line but would surely win the ball game," Hynek said. "It past a shocking mixture of complacency and superiority, they seemed to want reassurance from me that everything was really all right."

Commenting on a report from Russia today that the Soviets might launch an automatic station to be set up on the moon, Dr. Hynek said the problem of reaching the moon was not much more difficult than that of launching a satellite.

"It is very definitely in the realm of present possibility to reach the moon," Dr. Hynek emphasized. He said a satellite would have to be launched into space at seven miles a second to reach the moon as compared to five miles a second to orbit around the world.

The difficulty would be in the controls to aim the satellite at the moon and enable it to land on the surface without destroying itself, the scientist said.

The moon is at an average distance of about 239,000 miles and Dr. Hynek said that it was "a good guess" that a rocket, about twice the size of the present 11-ton American Vanguard rocket would be needed.

The Vanguard is designed to launch a U. S. satellite weighing 2½ pounds.

Dr. Hynek, is referring to Midwest reaction to the Russian satellite, said a scientist told him of a youth who wished to attend college and major in astronomy but was unable to do so because of lack of funds.

"Such a situation would be unheard of in Russia," Dr. Hynek commented.

In talking to newsmen and other laymen yesterday, Dr. Hynek said, "It was difficult to get across the idea that we had to do some real stock-taking. The present trend in this country is a serious one, we have to wake up."

"Our most precious natural asset is brains," Hynek said. "There is no question but what every lad with talent should be allowed to go to college."

U. S. and Turkey Join Forces In Assembly

By OM HOGE

UNITED NATIONS, N. Y. — (AP) The United States and Turkey marshaled their forces today to parry, in a U. N. General Assembly debate, Soviet-Syrian charges of aggressive plans in the Middle East.

The 82-nation assembly voted 60-0 to take up Syria's complaint that Turkey menaces her security. High point of the debate, however, is expected to be Russia's companion charge that the United States is goading Turkey into an invasion of Syria.

Both the United States and Turkey have denied repeated accusations, but they said they would welcome a full airing of the charges. Debate is expected to begin Tuesday.

As the U. N. agreed to look into the crisis, the Soviet Union renewed a warning that it would go to Syria's aid in case of attack.

A statement issued in Moscow also charged Turkey planned to attack along 180 miles of Syria's northern border "with the support of the U. S. 6th Fleet." It said Britain had consented to a top-secret war plan.

Turkey's Ambassador Seyfullah Esin charged in a U. N. Steering Committee debate that Russia was trying to intimidate his country by creating a fictitious situation.

Turkey, he declared, already has assured both Syria and Russia that she does not have aggressive designs against her Arab neighbor.

The United States, which has been consulting with other delegations since the Syrian-Russian charges came in, is working on proposals for the debate. They would highlight Russia's role in the Middle East.

U. S. Ambassador Henry Cabot Lodge expressed confidence the discussion would show not only the "absurdity" of the charges against the United States and Turkey, but will also reveal a true source of tension in the entire area.

Lester B. Pearson, former foreign minister of Canada, suggested in Ottawa that the U. N. Emergency Force stationed on the Egyptian-Israeli border to prevent aggression be used along the Syrian-Turkish frontier. Canada and Peru were reported to have proposals to make during the debate.

Syria accompanied her complaint with a memorandum proposing that the assembly set up a U. N. inquiry commission to investigate the border situation.

The latest remon charge said Iraq and Jordan would launch the initial attack on Syria, according to the alleged American plot. Then Turkey would strike the "main blow with U. S. Navy support. Israel would attack Syria later, Moscow charged.

The Navy said unless things get worse in the eastern Mediterranean, the 6th Fleet will return to normal operations west of Italy within a few weeks. Four U. S. warships landed on a friendly call at Izmir, Turkey, a NATO port on the edge of the NATO zone. The other 6th Fleet vessels are in liberty ports in friendly countries, the Navy announced in Washington.

Arkansan Is Innocent of Bank Robbery

CAPE GIRADEAU (AP) — A jury deliberated a little over an hour yesterday and found a 30-year-old Pigott, Ark., barber innocent of participating in a bank robbery in Missouri.

The all-male jury acquitted Arthur Cleburne Silas on a charge that he helped rob the State Bank of Ark. of \$34,036 in December 1935.

Defense witnesses testified in Federal District Court that Silas was giving haircuts in Pigott, 30 miles from Fisk—and he left the shop only for a short while after the robbery.

Silas testified he had gone to buy his wife a Christmas present and drink coffee.

GREAT PROMISES from the BIBLE

Humble yourselves in the sight of the Lord, and He shall lift you up.

James 4:10

When confusion confronts those stricken by grief, we endeavor to serve in a manner that dispels anxiety and affords peace of mind.

Hemden - Cornelius
